

**MICHAEL R. VILLALVA**  
*Petroleum Engineer*

Mr. Villalva is a petroleum engineer with over 20 years of experience in many facets of the oil and gas industry – production, operations, drilling, completions, and reservoir engineering. He graduated from Texas Tech University with a B.S. in Petroleum Engineering (Magna Cum Laude).

After starting nine years of his career with Chevron in Midland, Texas, Mr. Villalva has held various positions with other corporate and independent producers, such as Encana, Citation Oil & Gas, and Pioneer Natural Resources. He has worked on various assets (HTHP, conventional, and unconventional) in the Permian Basin, North and South Texas as well as the Mid-Continent area. During this time, he gained valuable experience in business development, project management, waterflooding, log analysis, and field operations which has allowed him to be well-versed in understanding the full life cycle of oil and gas properties.

In Mr. Villalva's most recent work experience, he served as a multi-disciplined engineer where he performed the duties of operations, production, and/or reservoir engineering for various US and international projects.
